

Fiber Service Site Plan

Need help filling this out? Please call us!
888-485-2537.

Please complete and return by mail in enclosed envelope or email to service@truestreamfiber.com or drop off at Great Lakes Energy, 1323 Boyne Ave., Boyne City.

In the box below, draw your property and mark septic system or other underground items. Do not include electric or gas.

For office use only
SO#:

Symbol

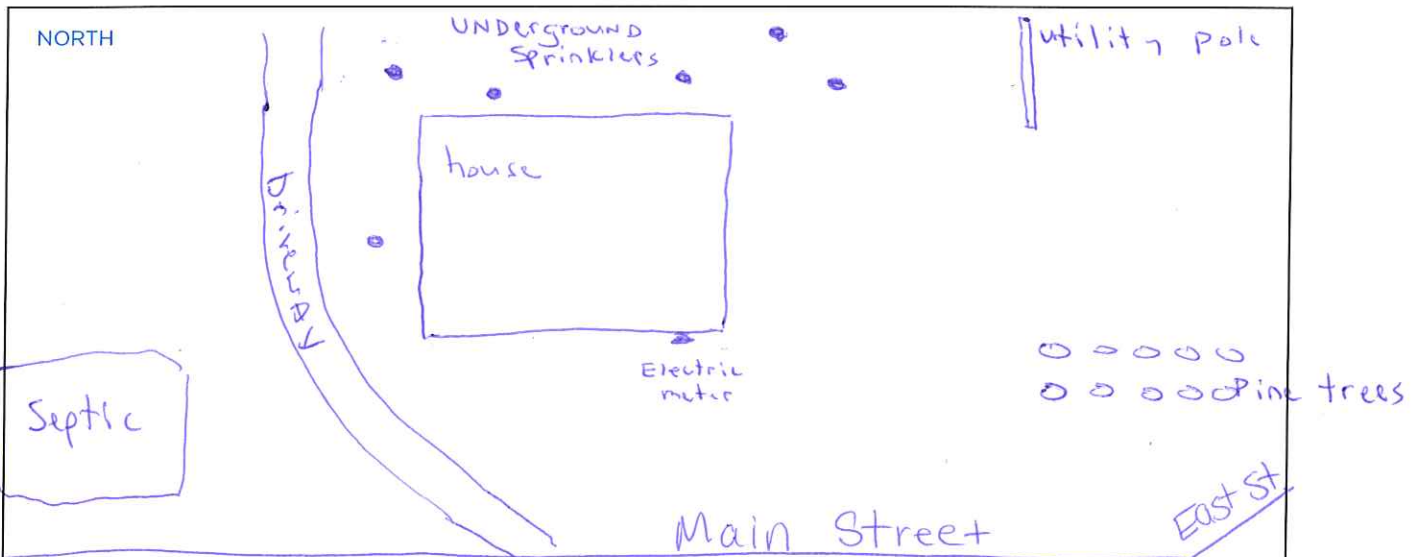

- Existing Electric Pole if applicable
- △ Existing Electric Transformer if applicable
- X Existing Electric Meter location
- ↗ Member Preferred Fiber routes

Items to mark might include:

- Septic systems
- Pet fences
- Sprinkler systems

Include all: Property Lines Lot Dimensions Buildings Septic and Drain Field Water and Irrigation Lines Driveway Roadways Other (dog fences, landscape lighting wires, private electric lines)

NOTE: THIS MUST BE RETURNED BEFORE TRUESTREAM/GREAT LAKES ENERGY CAN PROCEED WITH INSTALLATION.

Great Lakes Energy and Truestream will contact MISSDIG to have all utilities such as electric, gas, propane, and cable marked for you. Clearly mark or expose customer-owned facilities with stakes or flags or other. A GLE site planner will visit your site to mark the rout of your fiber line and determine if additional permits or easements are needed, at the expense of GLE.
